

Key Events - Chloride (Salt) in the Santa Clarita Valley

The timeline below lists the key actions the SCV Sanitation District Board has taken to preserve local control and to protect its customers – the Valley’s property owners – from unreasonable State fines and to develop the smallest and least costly solution to meeting the State’s legal requirements, since 1989, when the State set strict limits on the salt level in the Valley’s wastewater (sewage) discharge to the Santa Clara River.
