

Notice and Agenda

REGULAR MEETING — BOARD OF DIRECTORS — COUNTY SANITATION DISTRICT NO. 28

To be held at the OFFICE OF THE DISTRICT  
1955 Workman Mill Road, Whittier, California

**For the public to join the meeting virtually, click <https://us02web.zoom.us/j/8091438308> or enter the Meeting ID 809 143 8308 into the Zoom app on your smartphone or computer. Alternatively, you may join by phone by calling (669) 900-9128 and entering the Meeting ID. The meeting is not required to be broadcast via Zoom, but as a courtesy for public attendance. You may find further information at: <http://www.lacsd.org/agendas>**

THE DISTRICT MAY TAKE ACTION ON ANY AGENDA ITEM LISTED BELOW

WEDNESDAY		February 25, 2026		At 1:30 P.M.
BOWMAN	EICH	DAVITT (Chairperson)	FOSSAN	HOBSON

1. Public Comment
2. Approve Minutes of Regular Meeting Held January 28, 2026
3. Approve November 2025 Expenses in Amount of \$1,591

Summary: Local District expenses represent costs that are the sole responsibility of the individual District. Allocated expenses, which are generally distributed twice per year in conjunction with the receipt of the District’s service charge revenue, represent the District’s proportionate share of expenses made by the Joint Outfall System pursuant to the Joint Outfall Agreement. The Agreement provides for the joint administration, technical support and management of the operations, maintenance, and capital costs associated with all the shared facilities for all of the signatory Districts, along with the methodology for determining the proportionate costs for each District. A listing of Districts’ payments and previously approved budgets can be found on the Districts’ website at [lacsd.org/financial-documents](http://lacsd.org/financial-documents). This item is consistent with the Districts’ Guiding Principle of commitment to fiscal responsibility and prudent financial stewardship.

Local District Expenses:

Operations & Maintenance	<u>\$1,591</u>
--------------------------	----------------

Total Expenses	<u>\$1,591</u>
----------------	----------------

4. Receive and Order Filed [Annual Comprehensive Financial Report](#) (ACFR) for Fiscal Year Ending June 30, 2025

Summary: The Districts’ ACFR for the fiscal year ending June 30, 2025, which includes the annual audit required by state and federal laws, has been previously distributed to the Directors. This item is consistent with the Districts’ Guiding Principles of commitment to fiscal responsibility and prudent financial stewardship; and to protect financial and facility assets through prudent investment and maintenance programs.

5. Re: Wastewater Revenue Program

- (a) Establish Date, Time, and Place for Combined Public Hearing on Service Charge Report; Industrial Wastewater Surcharge Rates, Connection Fee Rates, Collection of Service Charge on Property Tax Roll; Order Publication of Required Public Notices; and Authorize Board Secretary to the Board to Revise Date, Time, and Place for Public Hearing if Required Due to Scheduling Conflicts
- (b) Order Wastewater Service Charge Report Containing Description of Each Parcel and Amount of Proposed Wastewater Service Charge for Fiscal Year 2026-27 for Each Parcel; Filed with Clerk of Board of Directors of District
- (c) Introduce Following Ordinances and Waive Reading of Said Ordinances in their Entirety:
  - (1) *An Ordinance Prescribing Industrial Wastewater Surcharge Rates for County Sanitation District No. 28 of Los Angeles County*
  - (2) *An Ordinance Prescribing the Connection Fee Rate and Mean Loadings per Unit of Usage for County Sanitation District No. 28 of Los Angeles County*

Summary: A letter describing the required Board actions together with copies of the Service Charge Report, preliminary budget, and the proposed industrial wastewater surcharge rate and connection fee rate ordinances accompanies the agenda. The current service charge rate per single-family home (SFH) is \$0.00 per month (\$0 per year). The proposed rates for fiscal years 2026-27, 2027-28, 2028-29,

5. Contd.

2029-30, and 2030-31 are \$0.00 per month (\$0 per year) to allow reserve funds to drop toward target levels. Staff recommends the Combined Public Hearing be held at the Board meeting scheduled for May 27, 2026. Although the service charge rate is \$0, staff recommends the Public Hearing and the Service Charge Report be filed per the adopted ordinance. This item is consistent with the Districts’ Guiding Principles of commitment to fiscal responsibility and prudent financial stewardship; and to plan for both short-term and long-term needs to minimize the need for significant rate increases.

Adjourn

**Status Report:** Prior to or during the meeting session, the Chief Engineer and General Manager may update the Directors on various matters concerning the Districts that may be of current interest to the Directors.

**Public Comment:** Members of the public may address the Board of Directors on any item shown on the agenda or matter under the Board’s authority. A “Request to Address Board of Directors” form is available. In compliance with the Americans with Disabilities Act, if you require special assistance or need assistance, with language translation to participate in this meeting, please contact the Secretary to the Boards’ Office at (562) 908-4288, extension 1100. Notification of 48 hours prior to the meeting will enable staff to make reasonable arrangements to ensure accessibility to this meeting. (28CFR 35.101 et seq. ADA Tittle II).

**Document Requests:** Links to supporting documents are available online at the time of posting. Agendas and supporting documents or other writings that will be distributed to Board members in connection with matters subject to discussion or consideration at this meeting that are not exempt from disclosure under the Public Records Act are available for inspection following the posting of this agenda at the office of the Secretary to the Boards of Directors located at the Districts’ Joint Administration Building, 1955 Workman Mill Road, Whittier, California, 90601, or at the time of the meeting at the address posted on this agenda.

February 4, 2026

Boards of Directors  
Los Angeles County Sanitation District  
Joint Outfall System (JOS) Districts

Directors:

**Wastewater Revenue Program for Fiscal Year (FY) 2026-27 through FY 2030-31**

The agendas for the upcoming meetings of the Board of Directors of the Joint Outfall System (JOS) Districts contain an item regarding the District's wastewater revenue program. This program requires residential, commercial, and industrial dischargers to pay an annual user charge based upon their use of the Districts' wastewater management system.

This letter describes rate- and budget-related items that will be on the agendas for the upcoming JOS District Board meetings, with a focus on the new wastewater rates that are being proposed for the JOS Districts.

**SERVICE CHARGE AND SURCHARGE RATES**

Residential, commercial, and small industrial dischargers are covered by the service charge program, which collects user charges on the property tax roll. Large industrial dischargers are required to file surcharge statements and pay their user charge under the industrial wastewater surcharge program. Service charge rates (for residential and commercial users) and surcharge rates (for industrial users) ensure revenues adequately fund operational costs, upcoming capital projects, and help the Districts meet the financial targets in its Board-adopted reserve and debt policies.

In 2022, the Districts in the JOS adopted four-year service charge rate ordinances through FY 2025-26. These Districts will be considering new rates beginning with FY 2026-27. The proposed service charge rates for FY 2026-27 through FY 2030-31 for the JOS Districts are shown in the table below. These rates were developed by Carollo, an independent rate consultant, based on forecast revenues and expenses over the next five years. The Personnel Committee endorsed the proposed rates at their September 24, 2025 meeting, and subsequently, the individual JOS Districts concurred with starting with the rate ordinance process with the proposed rates.

Multi-family residential units pay 60% of the adopted single-family home (SFH) rate and condominiums pay 75% of the adopted SFH rate. Likewise, commercial and industrial dischargers pay in proportion to their use of the Districts' wastewater management system compared to an SFH. Dischargers with verified low water usage (particularly seniors and retirees) may qualify for a reduced charge.

The proposed Service Charge Rate Ordinance and Industrial Wastewater Surcharge Rate Ordinance are attached to the agenda.

**Proposed Service Charge Rates (\$/Sewage Unit)**

District	Current	July 1, 2026	July 1, 2027	July 1, 2028	July 1, 2029	July 1, 2030
1	205	238	271	304	337	370
2	197	232	267	302	337	372
3	211	243	275	307	339	371
5	183	216	249	282	315	348
8	218	244	270	296	322	348
15	179	212	245	278	311	344
16	160	192	224	256	288	320
17	177	205	233	261	289	317
18	194	226	258	290	322	354
19	181	214	247	280	313	346
21	191	224	257	290	323	356
22	186	216	246	276	306	336
23	0	0	0	0	0	0
28	0	0	0	0	0	0
29	376	431	486	541	596	651
SBC	75	100	125	150	175	200

CONNECTION FEE RATES

New connection fee rates are also proposed for FY 2026-27 through FY 2030-31. Wastewater connection fees are paid by new dischargers or existing dischargers who increase their discharge. The fees are calculated using a “buy-in” methodology where new users or increasing discharges buy-in to the existing facilities and funds. The proposed connection fee rates reflect the current net assets of each District on a per-capacity unit basis, plus an operational component equivalent to one year of service charge. The proposed Connection Fee Rate Ordinance is attached to the agenda.

RECYCLED WATER RATES

New recycled water rates are also proposed for FY 2026-27 through FY 2030-31. These rates are set at 30% of the District’s total operational costs, which provides price certainty for both the Districts and the users and ensures the incremental costs of producing the recycled water are covered. Revenue received from this program offsets the Districts’ operational costs of producing recycled water. The proposed Recycled Water Rate Ordinance is attached to the agenda for District No. 2.

BUDGET FOR FISCAL YEAR 2026-27

For individual JOS districts, enclosed for your review is the preliminary budget for FY 2026-27, a list of user fees, information on funds and reserves (if applicable), and an explanation of terms used in the

budget. The funds and reserves were established and funded in accordance with the Districts' *Wastewater Financial Reserve Policy* and *Joint Outfall System Financial Reserve Policy*. A preliminary budget for the JOS for FY 2026-27, and information on JOS funds and reserves has also been included.

#### LOW WATER REBATE PROGRAM

The cost of metering wastewater discharges from individual parcels is impractical and cost prohibitive. Hence, discharges are estimated using standard loading factors based on the size and types of facilities located on the parcel. With ongoing efforts by local communities to conserve water and install low-flow plumbing fixtures, many parcels may be discharging at lower rates than currently estimated. The Districts' low water rebate program allows parcel owners to apply for a reduction in their service charge rate based on their actual water usage. Staff is conducting a concerted public outreach, including information on this program in our Proposition 218 notices, newspaper advertisements, and the Districts' website, to ensure that parcel owners are aware of this program.

#### PROPOSITION 218 PROCESS

For those Districts with proposed service charge or surcharge rate increases, individual notices of the proposed service charge and surcharge rates were mailed to every property owner in the District in January 2026. By law, the notice provides information about the proposed rates and the date, time, and place for a public hearing on those rates. In addition to these minimum requirements, the notice also gives background information about the services being provided, details about a notice through which dischargers can save money (the low water rebate program), the process for protesting the rates, and a variety of methods by which they can contact Districts' staff for more information. Due to high reserve levels, the service charge rate for District Nos. 23 and 28 is \$0 per year. Proposition 218 notices are not required to be mailed to these property owners.

The Districts have also undertaken an extensive public outreach program. As with previous rate increases, staff will hold information meetings. A video of the information meetings will be made available on the Districts' website. In addition, tours of Districts' treatment facilities will be conducted for members of the community to see how wastewater is cleaned and converted into resources like recycled water, green energy and compost. The Districts' website has information and documents pertaining to the Districts' finances and will have detailed information about the proposed rate increases. The website also provides information on each owner's specific parcel and charges and explains the low water rebate program and opportunities for reducing their charges. Lastly, the Districts have a dedicated email address and toll-free telephone number with staff available to answer any questions the public may have.

#### SUMMARY OF REQUIRED ACTIONS

To implement new rates, the District must comply with the requirements the California Health & Safety Code. This includes ordering a Service Charge Report to be filed with the District Clerk. This report contains a description and the amount of the proposed service charge for each parcel. At the same time the Service Charge Report is filed, the Board will be asked to consider introducing the new Service Charge Rate Ordinance, Industrial Wastewater Surcharge Rate Ordinance, and Connection Fee Rate Ordinance for the public's review. District No. 2, on behalf of the JOS, will consider introducing the Recycled Water Rate Ordinance.

In addition, the Board must hold a public hearing on the proposed rates. It is recommended that the combined public hearing be set for the date, time and location listed on the agenda. After the combined public hearing is closed, the Board will consider adoption of the Service Charge Report and adoption of the Service Charge Rate Ordinance, Industrial Wastewater Surcharge Rate Ordinance, and Connection Fee Rate Ordinance to ensure the new rates become effective on July 1, 2026. Adoption of the Service Charge

Report, as is required under the California Health and Safety Code, is necessary for the District to continue to collect the approved wastewater service charge as a separate line item on the property tax roll. This is the most cost-effective and efficient means of collecting the service charges.

At the June Board meetings, final budgets will be presented to the Boards for consideration as part of the overall budgetary process, adoption of which will authorize budget appropriations. In addition, the Boards will take certain administrative actions that are required of all agencies that receive ad valorem taxes. These include establishing by resolution the amount of the tax levy the Districts will request from the Los Angeles County Tax Collector and adopting a limit on authorized expenditures of tax proceeds.

Very truly yours,

A handwritten signature in cursive script that reads "Robert C. Ferrante".

# COUNTY SANITATION DISTRICT NO. 28 OF LOS ANGELES COUNTY SERVICE CHARGE REPORT FOR FISCAL YEAR 2026-27

## INTRODUCTION

County Sanitation District No. 28 of Los Angeles County (District No. 28) encompasses all or portions of the city of La Cañada Flintridge.

District No. 28 is one of seventeen (17) contiguous sanitation districts within the urbanized Los Angeles Basin signatory to the amended *Joint Outfall Agreement*. These districts, known as the Joint Outfall System districts, have formed a regional wastewater management system known as the Joint Outfall System. This regional system consists of sewers, pumping plants, treatment plants, outfalls, incidental sanitation works, and the A.K. Warren Water Resource Facility which are essential to protect the public health of the people served by the system.

District No. 28, as a member of the Joint Outfall System, must provide a proportionate share of the revenue required to operate and maintain the facilities. Additionally, District No. 28 is responsible for any costs associated with the local sewers and pumping plants that are owned by District No. 28 and are solely for its benefit. The general revenue sources currently available to District No. 28 include a pro rata share of the ad valorem (property) taxes, service charges, industrial wastewater surcharges, grants, loans, interest income, contract revenue and reserves.

## SERVICE CHARGE DESCRIPTION

The supplemental revenue required under the *Master Service Charge Ordinance of County Sanitation District No. 28 of Los Angeles County* will be allocated among classes of developed parcels of real property on the basis of use of the sewerage system. The revenue derived from the service charge will be used for operation and maintenance and capital costs.

All industrial dischargers in District No. 28 discharging more than 1.0 million gallons per year are required to file a wastewater treatment surcharge statement as prescribed in the *Wastewater Ordinance* to pay their appropriate share of the costs based on their use of the sewerage system. All other users of the sewerage system, except for contractual and local government users, will pay service charges.

The basic term used to define the service charge is a sewage unit (SU). A sewage unit represents the average daily quantity of sewage flow and strength from a single-family home measured in terms of flow, chemical oxygen demand (COD), and suspended solids (SS). The number of sewage units per unit of measure shall be determined by the following formula:

$$\text{SU} = A \left( \frac{\text{FLOW}_{\text{avg}}}{\text{FLOW}_{\text{sfh}}} \right) + B \left( \frac{\text{COD}_{\text{avg}}}{\text{COD}_{\text{sfh}}} \right) + C \left( \frac{\text{SS}_{\text{avg}}}{\text{SS}_{\text{sfh}}} \right)$$

where:

- A = The proportion of the total operation and maintenance and capital costs required for conveyance, treatment, and disposal of wastewater for the fiscal year attributable to flow;
- B = The proportion of the total operation and maintenance and capital costs required for conveyance, treatment, and disposal of wastewater for the fiscal year attributable to COD;
- C = The proportion of the total operation and maintenance and capital costs required for conveyance, treatment, and disposal of wastewater for the fiscal year attributable to suspended solids;

**COUNTY SANITATION DISTRICT NO. 28 OF LOS ANGELES COUNTY  
SERVICE CHARGE REPORT FOR FISCAL YEAR 2026-27**

- FLOW<sub>sfh</sub> = Average flow of wastewater from a single-family home in gallons per day;
- COD<sub>sfh</sub> = Average loading of COD in the wastewater from a single-family home in pounds per day;
- SS<sub>sfh</sub> = Average loading of suspended solids in the wastewater from a single-family home in pounds per day;
- FLOW<sub>avg</sub> = Estimated flow of wastewater which will enter the sewerage system from a user in gallons per day;
- COD<sub>avg</sub> = Estimated loading of COD which will enter the sewerage system from a user in pounds per day;
- SS<sub>avg</sub> = Estimated loading of suspended solids which will enter the sewerage system from a user in pounds per day.

The A, B, and C factors, defined above, are periodically adopted by the District No. 28 Board of Directors, the most recent adopted values can be found in *An Ordinance Prescribing the Service Charge Rate and Mean Loadings per Unit of Usage for County Sanitation District No. 28 of Los Angeles County*.

The service charge per sewage unit is determined by dividing the total required supplemental revenue by the total number of sewage units in District No. 28. The service charge for each parcel is determined by multiplying the service charge per sewage unit by the number of sewage units attributable to the parcel, which in turn, is determined by the class of real property and the sewage unit formula and the flow, COD and SS loadings from the User Categories and Mean Loadings, periodically adopted by the Board of Directors of District No. 28.

Based upon presently anticipated sources of funds, the service charge rate for fiscal year 2026-27 is \$0 per sewage unit. Parcels with significantly lower water usage may be eligible for a reduced rate pursuant to the terms of the *Master Service Charge Ordinance of County Sanitation District No. 28 of Los Angeles County*.

**DESCRIPTION OF PARCELS RECEIVING SERVICES AND IDENTIFICATION OF AMOUNT OF CHARGE FOR EACH PARCEL**

All parcels of real property within the 2026-27 Tax Rate Areas as shown in Table 1 are receiving or benefiting from the services and facilities of District No. 28. Said parcels are more particularly described in maps prepared in accordance with Section 327, Revenue and Taxation Code, which are on file in the office of the Los Angeles County Assessor, which maps are hereby incorporated herein by reference.

All commercial and institutional parcels assessed a service charge based on the Los Angeles County Assessor's current tax roll shall be charged on the basis of not less than one (1.0) sewage unit.

No charge shall be imposed on the owner or owners of any parcels as to which the fair market value of improvements is less than \$1,000 as determined on the basis of the Los Angeles County Assessor's current tax roll. This assumption is predicated on the fact that this type of parcel would be a vacant piece of land; however, should subsequent evaluation reveal that the property is not vacant, then an appropriate service charge would be levied.

Bond Repayment	10,725	10,724
Debt Service	16,099	16,080
 <b>Total Use of Funds</b>	<b>\$ 797,089</b>	<b>\$ 834,341</b>
 <b><u>Ending Balance</u></b>	<b>\$ 529,758</b>	<b>\$ 431,612</b>

(1) The Adopted FY 25-26 Budget is presented as adopted by the Board in 2025. The ending balance reflects the estimate at that time, and therefore may not match the current estimated starting balance for the Proposed FY 26-27 Budget.

(2) The FY2026-27 starting operating fund balance is lower than the FY2025-26 budgeted ending balance, primarily due to a more aggressive bond financing assumption in FY2025-26, which included an additional \$251M bond issuance.

**Joint Outfall System

# Sanitation Districts of Los Angeles County

## Wastewater Budget Explanation and Glossary of Terms

### Fiscal Year 2026-27

#### INTRODUCTION

The budget package for each District consists of the following sections:

- **Operating Fund Budget:** Details of the sources and uses of funds for the Operating Fund and Unrestricted Reserve Fund, described in the District’s wastewater reserve policies. The proposed budget for the upcoming fiscal year is compared to the adopted budget for the current fiscal year.
- **Proposed Capital Projects:** Shows major capital projects budgeted expenditures for the fiscal year. If a District has no major capital projects budgeted, this section is omitted. Joint Outfall System capital projects are not listed on individual district budgets and are instead listed in the Joint Outfall System budget.
- **Unrestricted, Designated and Restricted Reserve Budget:** Provides beginning and ending balances of each category of reserves along with major inflows to and outflows from that reserve.
- **Rate and Other Information Summary:** Shows adopted and proposed rates for the various user fees, summary of projected sewage units, and other metrics.

#### TERMS USED IN THE BUDGET

Below are explanations of budget line items and other terms used in the budgets. Note that some terms may not apply for certain Districts.

<b>Operating Fund Starting Balance</b>	Projected cash balance in the Operating Fund as of July 1 at the beginning of the fiscal year shown.
<b>Ad Valorem Tax Revenue</b>	A District’s share of Ad Valorem (property) taxes paid by property owners in a District.
<b>Service Charge Rate</b>	Fees paid by residential, commercial and small industrial users of a District’s wastewater system. These fees are generally collected on the property tax bill as a separate line item.
<b>Industrial Waste Rates</b>	Fees paid by large industrial users of a District’s wastewater system. For districts in the Joint Outfall System, Industrial Waste Revenue is shown on the Joint Outfall System budget, not each individual districts budget.
<b>Contract Revenue</b>	Revenue from commodity and energy revenue sales; leases; and other similar sources of revenue.
<b>Agricultural and Recycled Water Sales</b>	Revenue from commodity sales of composted material and reclaimed water
<b>Interest</b>	Interest revenue generated by Unrestricted, Designated, and Restricted Reserves.

<b>Grant Proceeds</b>	Grant revenue, generally from state or federal grants toward capital projects.
<b>Loan Proceeds</b>	Funds received from loans taken out to finance capital projects, primarily Clean Water State Revolving Fund (CWSRF) and Water Infrastructure Finance and Innovation Act (WIFIA) loans.
<b>Transfers from Restricted Reserve Funds</b>	Funds transferred from Restricted Funds including transfers from Capital Improvement Funds to be used toward capital expenditures.
<b>Transfers from Designated Reserve Funds</b>	Funds transferred from Designated Funds including the Rate Stabilization Fund.
<b>Transfers from Districts</b>	Funds transferred from the Joint Outfall Districts to Joint Outfall System for the remaining share of balances.
<b>Joint Administration Operations</b>	A District's share of Joint Administration Operating Expenditures less any operational or non-operational Joint Administration Revenues
<b>Joint Outfall Operations</b>	A District's share of Joint Outfall System Operating Expenditures less any operational or non-operational Joint Outfall System Revenues
<b>Sewer System Operations</b>	Expenditures related to operating and maintaining sewers and pumping plants.
<b>Treatment Plant Operations</b>	Expenditures related to operating and maintaining treatment plants.
<b>Composting Facility Operations</b>	Expenditures related to operating and maintaining composting facilities.
<b>Contract Disposal Operations</b>	Expenditures related to the operation and maintenance for conveyance and treatment of wastewater performed by another entity.
<b>Other Operational Expenditures</b>	Operational expenditures that are not directly related to facilities, such as insurance, annexations, and certain regulatory work.
<b>Joint Administration Capital</b>	Capital expenses that are not related to facilities, such as laboratory and administration office projects.
<b>Joint Outfall Capital</b>	Joint Outfall System capital expenses related to facilities.
<b>Sewer System Capital</b>	Capital expenditures related to rehabilitation or expansion of sewers and pumping plants.

<b>Treatment Plant Capital</b>	Capital expenditures related to upgrade, repair or expansion of treatment plants.
<b>Composting Facility Capital</b>	Capital expenditures related to upgrade, repair or expansion of composting facilities.
<b>Field Office Capital</b>	Capital expenditures related to upgrade, repair or expansion of field offices.
<b>Contract Disposal Capital</b>	Capital expenditures related to conveyance and treatment of wastewater performed by another entity.
<b>Loan Repayment</b>	Interest and principal payments toward loans, primarily CWSRF and WIFIA loans.
<b>Bond Repayment</b>	Interest and principal payments toward bond debt.
<b>Transfers to Designated Reserve Funds (Transfers Out)</b>	Surplus funds at the end of the fiscal year not required for operating or cash-flow purposes that are transferred to Designated Reserves. Designated Reserves are primarily used to help stabilize future rates and to set aside funds for future capital projects.
<b>Transfers to Unrestricted Reserve Funds (Transfers in)</b>	Funds transferred to Unrestricted Funds to be used to meet the cash flow needs of the Joint Outfall System.
<b>Operating Fund Ending Balance</b>	Projected balance in the Operating Fund as of June 30 at the end of the fiscal year shown.
<b>Total Served Sewage Units</b>	Total number of Sewage Units (single family home equivalent dischargers) that are served by facilities owned by the Districts.

**AN ORDINANCE PRESCRIBING INDUSTRIAL WASTEWATER  
SURCHARGE RATES FOR COUNTY SANITATION  
DISTRICT NO. 28 OF LOS ANGELES COUNTY**

**THE BOARD OF DIRECTORS OF COUNTY SANITATION DISTRICT NO. 28 OF LOS ANGELES COUNTY ORDAINS AS FOLLOWS:**

**SECTION 1 – SHORT TITLE**

This Ordinance shall be known as the *District No. 28 Industrial Wastewater Surcharge Rate Ordinance* and may be cited as such.

**SECTION 2 – PURPOSE**

The purpose of this Ordinance is to establish the industrial wastewater surcharge rates prescribed by County Sanitation District No. 28 of Los Angeles County.

**SECTION 3 – INDUSTRIAL WASTEWATER SURCHARGE RATES**

(a) Pursuant to the *Wastewater Ordinance*, adopted by County Sanitation District No. 28 of Los Angeles County, the following, to be effective on the dates given, shall constitute the annual industrial wastewater surcharge rates:

	<b><u>Parameter</u></b>	<b><u>July 1, 2026</u></b>	<b><u>July 1, 2027</u></b>	<b><u>July 1, 2028</u></b>	<b><u>July 1, 2029</u></b>	<b><u>July 1, 2030</u></b>
Flow	(a) [per MG]	\$ 1,073.00	\$ 1,221.00	\$ 1,367.00	\$ 1,512.00	\$ 1,657.00
COD	(b) [per 1,000 lbs]	210.00	243.00	275.60	308.00	340.40
SS	(c) [per 1,000 lbs]	614.60	693.90	772.00	849.50	927.50
Peak	(d) [per gpm]	156.30	178.10	199.70	221.10	242.50
Short Form Rate	[per MG]	\$ 4,979.38	\$ 5,692.96	\$ 6,397.02	\$ 7,096.32	\$ 7,797.01

(b) To further the use of the Districts’ reclaimed water, a credit, as determined by the Chief Engineer and General Manager, will be applied to an industry’s wastewater surcharge obligation for the chemical oxygen demand present in reclaimed water utilized by an industrial discharger and which originated at a Districts’ water reclamation plant.

**SECTION 4 – VALIDITY**

If any part, section, subsection, paragraph, sentence, clause, or phrase of this Ordinance is held invalid or unconstitutional for any reason by any court, that decision does not affect the validity or constitutionality of the remainder of this Ordinance. The Board of Directors declares that it would have adopted each provision of this Ordinance irrespective of the validity of any other provision.

**SECTION 5 – SUPERSESION**

This Ordinance shall supersede *An Ordinance Prescribing Industrial Wastewater Surcharge Rates for County Sanitation District No. 28 of Los Angeles County*, adopted May 25, 2022.

**SECTION 6 – EFFECTIVE DATE**

This Ordinance shall become effective July 1, 2026.

**AN ORDINANCE PRESCRIBING THE CONNECTION FEE RATE  
AND MEAN LOADINGS PER UNIT OF USAGE FOR  
COUNTY SANITATION DISTRICT NO. 28 OF LOS ANGELES COUNTY**

**THE BOARD OF DIRECTORS OF COUNTY SANITATION DISTRICT NO. 28 OF LOS ANGELES COUNTY ORDAINS AS FOLLOWS:**

**SECTION 1 – SHORT TITLE**

This Ordinance shall be known as the *District No. 28 Connection Fee Rate Ordinance* and may be cited as such.

**SECTION 2 – PURPOSE**

The purpose of this Ordinance is to establish the connection fee rates, user categories, and mean loadings prescribed by County Sanitation District No. 28.

**SECTION 3 – USER CATEGORIES AND MEAN LOADINGS**

Pursuant to the *Master Connection Fee Ordinance of County Sanitation District No. 28 of Los Angeles County*, or any successor ordinance, the following, to be effective on the date given in Section 8, shall constitute the user categories and mean loadings per unit of usage for flow, chemical oxygen demand (COD), and suspended solids (SS), for County Sanitation District No. 28 of Los Angeles County:

<u>DESCRIPTION</u>	<u>UNIT OF MEASURE</u>	<u>FLOW (Gallons per Day)</u>	<u>COD (Pounds per Day)</u>	<u>SS (Pounds per Day)</u>
<b>RESIDENTIAL</b>				
Single Family Home	Dwelling Unit	260	1.22	0.59
Condominiums	Dwelling Unit	195	0.92	0.44
Multi-Unit Residential	Dwelling Unit	156	0.73	0.35
Mobile Home Parks	No. of Spaces	156	0.73	0.35
<b>COMMERCIAL</b>				
Hotel/Motel/Rooming House	Room	125	0.54	0.28
Store	1,000 ft <sup>2</sup>	100	0.43	0.23

Church	1,000 ft <sup>2</sup>	50	0.21	0.11

#### **SECTION 4 – CONNECTION FEE RATE**

Pursuant to the *Master Connection Fee Ordinance of County Sanitation District No. 28 of Los Angeles County*, or any successor ordinance, the following, to be effective on the dates given, shall constitute the Connection Fee Rate per capacity unit:

<u>Cost Component</u>	<u>July 1, 2026</u>
District Capital	\$ 0
Joint Outfall Capital	\$ 1,569
Operational	\$ 0
<b>Total:</b>	<b>\$ 1,569</b>

## **SECTION 5 – COST ALLOCATION FACTORS**

Pursuant to the *Master Connection Fee Ordinance of County Sanitation District No. 28 of Los Angeles County*, or any successor ordinance, the proportions of the total capital costs required to construct the sewerage system including conveyance, treatment, and disposal of wastewater which are attributable to flow, COD, and suspended solids, designated as X, Y, and Z, respectively, to be effective on the date given in Section 8, shall be:

$$X = 0.6013 \quad Y = 0.1433 \quad Z = 0.2554$$

## **SECTION 6 – VALIDITY**

In any part, section, subsection, paragraph, sentence, clause, or phrase of this Ordinance is held invalid or unconstitutional for any reason by any court, that decision does not affect the validity or constitutionality of the remainder of this Ordinance. The Board of Directors declares that it would have adopted each provision of this Ordinance irrespective of the validity of any other provision.

## **SECTION 7 – SUPERSESSION**

This Ordinance shall supersede *An Ordinance Prescribing Connection Fee Rate and Mean Loadings per Unit of Usage for County Sanitation District No. 28 of Los Angeles County*, adopted May 25, 2022.

## **SECTION 8 – EFFECTIVE DATE**

This Ordinance shall become effective July 1, 2026.
